## ULTRAGRAIN® ALL PURPOSE FLOUR BLEND T-2

With Ultragrain® All Purpose Flour Blend T-2, it's easy to make the switch to whole grain-rich cooking and baking. Our unique blend is 55% Ultragrain—the revolutionary whole wheat flour with the taste, texture and appearance of white flour—and 45% premium enriched white flour. Use it in everything—from rolls and muffins to pizza and bars—or look for it in Ultragrain Pasta® and other popular foods. And the best part is, students won't even know they're eating whole grains—thanks to the smooth, soft texture and light color.
