

Make it fun & they will come...

Back for more nutritious food!

Those lovable OrganWise Guys; Hardy Heart®; Peri Stolic® (the intestines); Sir Rebrum® (the brain); Pepto (the stomach); and the rest of their pals, ignite the passion in children for nutritious, tasty foods. Their motto: "We love who we live in, so please take care of us!"

The Foods of the Month Club Kit (FoM) introduces children, staff and parents to the nutrient-dense foods we should all be consuming regularly.

This multi-media set of FUN materials is designed to bring the foodservice staff directly into the nutrition education process, by providing them with unique tools for use in cafeteria settings...encouraging everyone to try the nutrient-rich foods served every day!

FoM includes:

- posters
- cafeteria cards
- buttons
- window clings
- a speaker's kit
- secure web access

There is a host of "goodies" available on the secure website, such as:

- parent/staff newsletters (English/Spanish)
- The OrganWise Guys images and art (to add to menus)
- student activity packets
- links to **USDA Team Nutrition and MyPyramid** materials that reinforce the importance of nutrient-dense foods.

Receive a 10% discount on The OrganWise Guys FoM Kit (or any of the 100+ educational tools available) now through March 2011. Simply go to www.organwiseguys.com (reference "SuperKids" in the coupon code section when you place your order) or call 800-786-1730.
